Submit consistent, detailed claims to help to reduce medical record review in your offices. Include all existing conditions on the claim, at the time of each visit. Every time you see a member is an opportunity for preventive care as well as sick care.

Schedule regular checkups and/or blood work for members who are on long-term medications.

Assess member compliance/adherence to long-term medication therapy (i.e., Asthma medications.)

Document all procedures done by other physicians with a date and result.
